

2025 - 2027 School Improvement Plan for Riverdale Primary School

 <h2>Vision</h2>	 <h2>Strategic Goals</h2>	 <h2>Success</h2> <p>What do you expect to see</p>	 <h2>Strategic Initiatives</h2> <p>How will you make progress towards...</p>
<p><i>Nurturing a Love of Learning</i></p> 	<p>To develop confident and effective learners who deeply understand and appreciate mathematics, enabling them to think critically, creatively, and collaboratively, and to apply their mathematical skills effectively in various real-world contexts.</p>	<ul style="list-style-type: none"> Students demonstrate increased confidence in their mathematical abilities. Students demonstrate a strong conceptual understanding and grasp of number. Students exhibit enhanced critical, creative, and collaborative thinking skills in mathematics. Students successfully apply mathematical concepts to real-world contexts. 	<p>1.1 Provide comprehensive professional development for educators on the Learning Power Approach (LPA), SA Maths Curriculum and its integration into mathematics instruction.</p> <p>1.2 Promote student resilience and wellbeing by integrating growth mindset in maths learning.</p> <p>1.3 Develop a comprehensive framework for inclusive and culturally responsive teaching that recognises and values the diverse backgrounds of all learners, particularly Aboriginal students.</p> <p>1.4 Engage and partner with families, businesses, and community organisations in math education to enhance students' understanding, appreciation, and application of mathematics.</p>
	<p>To improve students' reading abilities by fostering critical engagement with texts, improving comprehension, and cultivating a lifelong passion for reading, all based on the principles of the Science of Reading.</p>	<ul style="list-style-type: none"> Learners demonstrate an improved ability to decode, understand, and interpret texts. Learners critically engage with texts through active analysis and discussion of deeper meanings and contexts. Learners have a positive attitude towards reading and choose to read for pleasure. Learners effectively express their understanding through speaking, writing, and visual presentations. 	<p>2.1 Provide thorough professional development for educators on comprehension strategies grounded in the science of reading.</p> <p>2.2 Implement structured literacy programs with a strong focus on comprehension, valuing the diverse backgrounds of all learners, particularly Aboriginal students.</p> <p>2.3 Create a vibrant literacy environment with diverse texts, interactive read-alouds, and technology integration to enhance comprehension.</p> <p>2.4 Engage and partner with families and community organisations in reading education through workshops and resources.</p>
